## BMV Hosts Grand Opening of Relocated Plainfield License Branch

**INDIANAPOLIS**—Kent Abernathy, Commissioner of the Indiana Bureau of Motor Vehicles (BMV), hosted a Grand Opening of the relocated Plainfield license branch today. He was joined by State Senator Mike Young (R-Indianapolis), Plainfield Council President Robin Brandgard and Clerk-Treasurer Wes Bennett.

The new license branch, located at 2477 E. Main Street, features more parking and increased processing capability than the former Plainfield location. The Plainfield branch last year processed more than 80-thousand transactions with an average wait time for customers of under 13-and-a-half minutes.

“Plainfield is a growing community and the BMV has grown here to help customers with all their licensing and registration needs,” said Abernathy. “This new location could help make customer wait times at the Plainfield branch, even shorter.”

The new license location houses 10 Customer Service Terminals instead of eight at the old branch and eight Knowledge Testing Stations compared to five at the old branch.

“We truly appreciate the investment in our community that the BMV is providing with this beautiful new location,” said Sen. Mike Young. “It’s all about government giving the best service it can to Plainfield area taxpayers.”
