**LCC Meeting Schedule:**

Please provide the months the LCC meets throughout the year:

We meet on the third Monday of every month, except July and December.

**Community Needs Assessment: Results**

*The first step in developing an effective substance use and misuse reduction plan is to assess your community. A community assessment tells you about your community's readiness to implement prevention, treatment, and justice-related programs to address substance use and misuse. An assessment also provides an overview of the risk and protective factors present in the community, helping your coalition plan more effectively.*

**Community Profile**

County Name	Greene County
County Population	30,786
Schools in the community	5 School Districts: Eastern Greene; Bloomfield; White River Valley; Linton; Shakamak

## Making A Community Action Plan

Now that you have completed a community assessment and have identified the risk and protective factors that exist, you can develop a plan of action. The Comprehensive Community Plan (CCP) is a systematic and community-driven gathering, analysis, and reporting of community-level indicators for the purpose of identifying and addressing local substance use problems.

Step 1: Create problem statements, and ensure problems statements are in line with statutory requirements

Step 2: Ensure your problem statements are evidence-informed, then prioritize

Step 3: Brainstorm what can be done about each

Step 4: Prioritize your list, and develop SMART goal statements for each Step

5: List the steps to achieve each goal

### Step 1: Create + Categorize Problem Statements

*Create problem statements as they relate to each of the identified risk factors.*

Risk Factors		Problem Statement(s)	
<p>1. High Availability of Alcohol and drugs in the Community</p>	<p>1. Youth in Greene County need prevention, education and treatment services related to substance use.</p> <p>2. Adults in Greene County need prevention, education and treatment services related to substance use.</p> <p>3. Criminal Justice Agencies need training and advanced technologies to aid them in their efforts to combat substance abuse.</p>	<p>1. Youth in Greene County need prevention, education and treatment services related to substance use.</p> <p>2. Adults in Greene County need prevention, education and treatment services related to substance use.</p>	<p>2. Limited educational and treatment opportunities with the community.</p>

**Step 2: Evidence-Informed Problem Statements**

Identify your top three problem statements using local or state data. Ensure that there is a problem statement for each co-equal funding category (e.g., prevention/education, intervention/treatment, and criminal justice services and activities).

<p>3. Decreased number of trained Law Enforcement Officers with the county</p>	<p>1. Criminal Justice Agencies need training and advanced technologies to aid them in their efforts to combat substance abuse.</p>

Criminal Justice Agencies need training and advanced technologies to aid them in their efforts to combat substance abuse.</p>

**Step 4: Develop SMART Goal Statements**

*For each problem statement, prioritize your list of what can be done. Choose your top two actions for each. Then, develop goal statements that demonstrate what change you hope to achieve and by when you hope to achieve it.*

<b>Problem Statement #1</b>	Goal 1 Identify youth that are need of education or treatment for substance abuse issues.	Goal 2 Increase prevention efforts in the community and schools regarding substance abuse.
<b>Problem Statement #2</b>	Goal 1 Provide education and prevention to adults regarding the dangers of substance use and misuse.	Goal 2 Identify individuals that are substance dependent for referral to treatment.
<b>Problem Statement #3</b>	Goal 1 Train LE on interviewing and investigations in regard to substance abuse related crimes.	Goal 2 Aid LE in procurement of new technologies that provide assistance to substance abuse investigations.

**Step 5: Plans to Achieve Goals**

*For each goal, list the steps required to achieve each*

<b>Problem Statement #1</b>	Goal 1 Identify Youth that need education or treatment.	Steps 1. Drug Screening 2. Referral to treatment when appropriate 3. Reporting to Law Enforcement when necessary
