Mon	roo County wa	c incorro	ctly place	nd in the						Dociar	o Catagory for	r Monroo (	County	
Monroe County was incorrectly placed in the "C" Seismic Design Category, the correct Seismic Design Category for Monroe County according to the 2108 International Residential Code Figure R301.2(2) is Category "B".  Fiscal impact depends on the number of, and sizes of, townhouses built in Monroe County. This proposal would reduce the braced wall line anchoring and sidewall bracing of townhouses built in Monroe County. Estimated fiscal impact is an estimated credit because of reduced seismic anchoring and bracing for an estimated 25 townhouses, \$6,000.00 (20 - \$5 anchors with 20- \$2 washers and 4- \$25 bracing panels per structure)
