

COMMUNITY HEALTH WORKER (CHW) WORKGROUP

CHAIR: JUDY HASSELKUS, INDIANA DEPARTMENT OF WORKFORCE DEVELOPMENT

CO-CHAIR: LAURA HEINRICH, INDIANA STATE DEPARTMENT OF HEALTH

June 5th, 2018

WELCOME

**APPROVAL OF PREVIOUS MEETING MINUTES* AND
ROLL CALL**

DISCUSSION OF OCCUPATIONAL REGULATION

Should education/training be **standardized** for CHWs through a **state-approved standardized** curriculum?

Should education/training be standardized for CHWs through a **flexible curriculum that meets competencies?**

How should CHW education/training be delivered?

- ... Classroom coursework requirements?
 - ... Clinical requirements?

Should the certification system include a path based on **experience** rather than education, or some “grandfathering” provision for individuals who have an educational certificate of completion for prior CHW training?

Should statute outline a scope associated with certified CHW
competencies and skills?

Shall Indiana maintain a list of its certified CHWs?

- ... If yes, what information should be tracked?

Shall an individual be required to present evidence of training completion and/or evidence required for grandfathering to be placed on this list?

Shall an individual be required to present evidence of continuing education to maintain active status on this list?

Shall an advisory body be established to advise on governance of the CHW workforce?
