Union (Terre Haute)	1	16,045	57,399	20,201
West Central (Clinton)	1	1,468	12,420	1,287
Wishard (Indianapolis)	1	17,493	No Report	9,118

* Explanation of these terms is found on page Appendix 2.

Ambulatory Surgery Centers (6)	Reported Events	Procedures*
Beltway Surgery Center (Indianapolis)	1	9,278
Franciscan Surgery Center (Indianapolis)	1	7,706
Indiana Orthopaedic Surgery Center (Indianapolis)	1	No Report
River View Surgery Center (Marion)	1	1,482
Surgicare Outpatient Surgical Center (Evansville)	1	8,633
Williams Eye Surgery Center (Hammond)	1	1,460

* Data for ambulatory surgery center procedures are for calendar year 2005, the latest year available.

Appendix B

The data tables for individual hospitals found in Appendix B provide the number of inpatient discharges, the number of outpatient visits, and the number of procedures performed by each hospital. This data is provided for the purpose of comparison of how many individuals seek medical services and how many surgical procedures are performed by each hospital in relation to the number of reported events. This data is required to be reported to the Indiana State Department of Health by hospitals no later than 120 days after the end of each calendar quarter. The Indiana Hospital & Health Association is the contractor that collects the data from each hospital. They perform quality checks and report the data to the Indiana State Department of Health in a standardized format. Appendix B reflects the data reported for the calendar year 2006 by hospitals as of July 20, 2007.

In order to eliminate mistakes in the report and give facilities the opportunity to review their data for accuracy, the ISDH sent to each facility their final report for 2006. The report was sent after July 1 so that all reportable events would be included for review. Facilities were instructed to review their data for correctness and completeness. Facilities then returned to the ISDH a verification of data. In late July 2007, the ISDH called all facilities that had not returned their verification form to request that the form be returned. A few facilities failed to return the verification prior to the publishing of the report. The report for each facility reflects whether the data was verified by the facility.

HOSPITAL DATA		
Data Category	Definition	Total Number Reported
Inpatient Discharges	Inpatient Discharge means the discharge of an individual who had been admitted to the hospital as an inpatient. It does not include hospice, skilled nursing facility and observation patients.	781,339
Outpatient Visits	Outpatient Visit refers to a visit to a facility for the purpose of emergency services, outpatient surgery, occupation and physical therapy/rehabilitation, cardiac diagnostic and treatment procedures, or psychiatric and social services. These classifications are based on selected billing or diagnosis codes.	3,032,505
Procedures	Procedure includes any surgical procedure coded "01.00" to "86.99" inclusive in the principal procedure field as reported by the hospital for both inpatient discharges and outpatient visits.	1,209,756

APPENDIX B
HOSPITAL REPORTABLE EVENTS FOR 2006

Adams Memorial Hospital
1100 Mercer Avenue
Decatur, IN 46733

Adams County
2006 Inpatient Discharges: 2,311
2006 Outpatient Visits: 19,060
2006 Procedures: 4,030

Reportable Event	Number Reported	Totals
SURGICAL		0
1. Surgery performed on the wrong body part	0	
2. Surgery performed on the wrong patient	0	
3. Wrong surgical procedure performed on a patient	0

Appendix C

As a way of providing some comparative figures for ambulatory surgery centers and the reported events, the reports for individual ambulatory surgery centers found in Appendix C provide the number of procedures performed by each ambulatory surgery center. This data is provided in this report for the purpose of comparison of how many patients are treated and how many procedures are performed by each ambulatory surgery centers in relation to the number of errors reported. This data is required to be reported to the Indiana State Department of Health. Appendix C reflects the surgical procedures performed as reported by ambulatory surgery centers for the year 2005. Calendar year 2005 data is the most recent complete year of data available.

In order to eliminate mistakes in the report and give facilities the opportunity to review their data for accuracy, the ISDH sent to each facility their final report for 2006. The report was sent after July 1 so that all reportable events would be included for review. Facilities were instructed to review their data for correctness and completeness. Facilities then returned to the ISDH a verification of data. In late July 2007, the ISDH called all facilities that had not returned their verification form to request that the form be returned. A few facilities failed to return the verification prior to the publishing of the report. The report for each facility reflects whether the data was verified by the facility.

AMBULATORY SURGERY CENTER DATA		
Data Category	Definition	Total Number Reported
Procedures	Procedure includes any procedure reported by the ambulatory surgery center on the ASC Utilization Report, State Form 49933	481,410

APPENDIX D

In order to eliminate mistakes in the report and give facilities the opportunity to review their data for accuracy, the ISDH sent to each facility their final report for 2006. The report was sent after July 1 so that all reportable events would be included for review. Facilities were instructed to review their data for correctness and completeness. Facilities then returned to the ISDH a verification of data. In late July 2007, the ISDH called all facilities that had not returned their verification form to request that the form be returned. A few facilities failed to return the verification prior to the publishing of the report. The report for each facility reflects whether the data was verified by the facility.

APPENDIX E

In order to eliminate mistakes in the report and give facilities the opportunity to review their data for accuracy, the ISDH sent to each facility their final report for 2006. The report was sent after July 1 so that all reportable events would be included for review. Facilities were instructed to review their data for correctness and completeness. Facilities then returned to the ISDH a verification of data. In late July 2007, the ISDH called all facilities that had not returned their verification form to request that the form be returned. A few facilities failed to return the verification prior to the publishing of the report. The report for each facility reflects whether the data was verified by the facility.
