Indiana Gaming Commission

Executive Director's Annual Report

Sara Gonso Tait
Executive Director

Introduction

The Commission demonstrated strong resolve and commitment to its core values when faced with significant challenges and threats in FY 2021. The Commission succeeded through measured and methodical actions in maintaining the reputation and integrity of the industry by employing all of its resources, talent, and expertise to protect the state as required by statute. I will always be proud of the efforts of the Commission, staff, and our casino licensees to ensure the public's confidence in the industry.

In September, Charles Cohen, of Bloomington, was appointed as a Commission member. Commissioner Cohen is a former Captain with the Indiana State Police, the Commander of Intelligence and Investigative Technologies, and Executive Director of the Fusion Center. Commissioner Cohen brings invaluable skills to the Commission, and we are delighted he is willing to serve.

To keep pace with increasing demands, the agency created the Division of Gaming Integrity. This new Division is led by Frank Brady, who has served as Audit Director since the Commission's inception. The Division's investigator is Bill Peevler, who came to the Commission after retiring from the Indiana State Police and has served in the Investigations, Audit, and Charity Gaming Divisions.

The Commission has worked very hard to establish productive working relationships with federal and state agencies, particularly in the area of financial crimes. This has increased the agency's visibility regarding money laundering and other crimes, and it has also significantly increased agency workload. The Integrity Division will focus on integrating all available anti-money laundering and other resources into our regulatory framework and investigations and will work cooperatively to provide support to the Commission's other divisions.

Casino and Sports Wagering Revenues

In the first eight months, total state-wide win was down \$200.3 million, or 14.2%, from FY 20 for the same period of July through February. As a result, wagering tax decreased by \$61.5 million, or 18.9%. The supplemental wagering tax decreased by \$4.2 million, or 14.4%. In the remaining four months, however, total statewide win

was up \$645.9 million, a 337.6% increase from FY 20 for the same period of March through June. As a result, wagering tax increased by \$164.2 million, or 192.0%. The supplemental wagering tax increased by \$13.3 million, or 337.7%.

Overall, for FY 21, state-wide total win increased \$445.5 million, or 27.9%, over FY 20. As a result, wagering tax increased \$102.7 million, a 25.0% increase and supplemental tax increased \$6.2 million, a 31.6% increase from FY 20.

Retail sportsbook handle increased \$110.0 million, a 38.6% increase from FY 20. Retail gross receipts increased \$18.4 million, or 60.5%. Online sportsbook handle increased \$1.8 billion, or 272.5%. Online gross receipts increased \$145.2 million, or 312.2% increase. Overall, online wagering accounted for 86% of all sports wagering handle and 80% of all gross receipts.

Both racino properties benefited significantly from the introduction of table games. Indiana Grand hit the \$8 million cap on the county slot wagering tax for the first time ever and Hoosier Park almost attained the milestone, too. Indiana Grand went over \$30 million in AGR for the first time and did it for the months of March, April, and May.

COVID-19 Impacts

Initially through October, gaming revenue was about 5%-10% down from pre-COVID-19 levels. This was followed by reduced performance November through February, with revenues down 11%-30%. During March through June, however, the industry saw exceptional performance with three out of four months grossing over \$200 million in gaming revenue.

Hard Rock Northern Indiana Land Based Casino

With 200,000 square feet, 1,600 slots and 80 table games, the \$300 million Hard Rock Northern Indiana opened in Gary on May 14. This facility had an immediate positive impact on gaming revenues with win of \$20.6 million in May and \$25.9 million in June. This more than doubled the combined former monthly win of Majestic Star 1 & 2, which ceased operations at Buffington Harbor pursuant to a law enacted in 2019 allowing a casino license to be transferred to the new land-based facility.

Tribal-State Compact

On January 21, the Governor and the Pokagon Band of Potawatomi Indians executed a federally required tribal-state compact for the purpose of authorizing Class III (full-scale) gaming activities at the Pokagon Band's South Bend casino. This compact is a first in Indiana's history. Federal and state law required the Governor to negotiate a tribal-state compact in good faith. The executed compact came after many months of negotiations and hard work. The State negotiation team took great measures to ensure this compact complies with all state and federal laws and includes provisions permissible under federal law.

Pursuant to Indiana Code § 4-29-3-5, the executed compact was submitted to the President Pro Tempore and Speaker of the House for ratification. Via House Enrolled Act 1055 (2021), the tribal-state compact was codified into state law and passed the Indiana Senate with a vote of 49-1 and the Indiana House of Representatives with a vote of 76-4. Consistent with the requirements of Section 11 of the Indian Gaming Regulatory Act, 25 U.S.C. § 2710, on May 3, 2021, the State of Indiana and Pokagon Band submitted to the Department of the Interior the tribal-state compact for review and approval.

Significant Capital Improvement

Indiana Grand in Shelbyville broke ground on a major expansion of its facility in March. The \$32 million project will expand the gaming floor by 25,000 square feet and allow for the addition of 100 slots and 25 table games, bringing 100 new casino jobs in addition to the construction jobs supported by the significant investment. The expansion is set to open by the end of 2021.

Cashless Wagering

In January, a cashless wagering pilot program, Boyd Pay, was launched at Blue Chip casino. In December, the Commission issued a directive with minimum standards for cashless wagering in Indiana. For many years, cashless wagering has been identified as one of the next innovative tools for casinos. Cashless wagering allows patrons to register with an external wallet provider and, after successfully linking a funding source to that wallet, transfer funds electronically to the casino wallet for gaming. Cashless wagering will assist the COVID-19 pandemic mitigation efforts and enable limited casino employee and patron interaction. Indiana was the first non-tribal regulatory jurisdiction to launch cashless wagering, again demonstrating the agency's ability to process and implement innovative requests from our casino partners.

Transfers of Ownership

The \$8.6 billion merger of Caesars and Eldorado was completed just after the beginning of the fiscal year, impacting five of Indiana's casino properties. The merger was considered by the Commission at its July 10 business meeting. Pursuant to the divestiture requirements imposed by Order 2020-87, Tropicana Evansville was subsequently sold to Bally's Corporation, with the real estate assets being acquired by Gaming and Leisure Properties, Inc. A definitive agreement was also entered into to sell Caesars Southern Indiana to EBCI Holdings, a commercial gaming company of the Eastern Band of Cherokee Indians, which will maintain a marketing and management agreement with Caesars.

At the request of Caesars and after conducting a review, the Commission, via Order 2021-113, amended its prior Order and removed the requirement that Caesars divest of a third Indiana asset. The Commission determined, after weighing many factors, that extending relief regarding the divestiture of a third casino property was in the best interest of the state, the local community, and Horseshoe Hammond employees and will not negatively impact the health or competition of the casino industry in Indiana.

Vigo County Casino Owner's License

After consideration of the statutory requirements for renewal, the Commission declined to renew the license granted to Lucy Luck Gaming, LLC for development and operation of a casino in Vigo County. The Commission directed staff to immediately begin accepting new applications and staff has made issuance of a new Vigo County license its top priority. It is the Commission's goal that a new operator will be selected by the end of the calendar year.

Spectacle Investigation

With the emergence of new information regarding the company, key persons and minority owners, the investigation into Spectacle Entertainment Group continued throughout and dominated the year. At the end of September, a key Spectacle executive was indicted and arrested. The Commission immediately suspended his

gaming licensed and ordered Spectacle to disassociate from the individual, which was effectuated in January. Other key actions included the emergency suspension of another key Spectacle executive's gaming license, followed by a series of related regulatory and court actions, and ultimately culminated in a settlement that resulted in the individual's immediate and complete divesture from Spectacle. The settlement also imposed a prohibition against the individual's involvement with any entity under the jurisdiction of the Commission now or in the future. Additionally, another former Centaur executive was convicted of making a campaign contribution prohibited by the Riverboat Gambling Act.

To ensure the failures of the past would not be repeated, the Commission adopted risk-based integrity emergency rules. Certain Spectacle minority owners challenged the Commission's authority to adopt those emergency rules and sought injunctive relief. As of the writing of this report, that legal action brought by the minority owners is pending in Marion Superior Court. In denying the minority owners' request for injunctive relief, the court reaffirmed the Commission's statutory authority to apply comprehensive and strict regulation to the industry. That ruling enabled the Commission to proceed with confidence in continuing to take all actions necessary to ensure Indiana gaming licensees meet the long-standing suitability requirements in law.

The suitability and regulatory investigation remains ongoing. The findings to date have produced significant results. While the investigation has consumed significant agency time and resources, without conducting the review we would be unable to meet the high standards established by law which come with a privileged license. Should a time come when all facts become known publicly, we have a high level of confidence that all will agree that the Commission has acted in a measured and reasonable manner.

Looking Ahead

This marks my final Executive Director's Report. It has been a true honor to lead this agency and I will look back with very fond memories of my time at the Commission. I leave after 10 years of public service and on a high-note, confident that I have served the agency, industry, and state well.

The Commission is comprised of a talented, dedicated staff. I know the agency is set up for success, not only on pending matters but also on any challenges ahead. The members of the Commission are devoted public servants who take their obligation to uphold the integrity of gaming seriously and each has been an invaluable resource to me personally and the agency. I am truly appreciative of Governor Holcomb and his office for the incredible support, trust and opportunity to grow.

I'm delighted the Governor has appointed Greg Small to be the next Executive Director. This is a great recognition of Greg's success and work in his current role and a much-deserved promotion. It's also an endorsement of the culture and performance of the agency. I am excited for the next chapter at the Commission under his leadership.

Respectfully submitted,

Sara Gonso Tait

MBE/WBE UTILIZATION

Disparity Study

Statute requires the Commission to establish annual goals for the use of minority and women-owned enterprises (M/WBE). These goals must be derived from a statistical analysis of utilization study of casino contracting and purchases. Such an analysis, also called a disparity study, must be updated every five years.

In keeping with its statutory mandate, an update of the Commission’s study was completed in November 2017. The Indiana University Public Policy Institute completed the study on our behalf, examining the contracting and purchasing practices of Indiana’s casinos from 2012 through 2017. Based upon actual purchase data provided by the casinos and audited by Commission staff, the study period reviewed over \$1.7 billion in spending on goods and services.

In addition to a review of purchasing, also called utilization, a disparity study must also seek to establish capacity, which is a measure of all firms ready, willing and able to provide goods and services to Indiana’s riverboat casinos. The capacity estimate derived from the study is below.

<u>Capacity Estimates</u>	<u>MBE</u>	<u>WBE</u>
Construction	10.7%	9.7%
Procurement of Supplies	1.7%	3.7%
Professional Services	3.5%	6.5%
Other Services	2.2%	6.4%

The Commission adopted the study at its November meeting in Resolution 2017-219 and will continue to monitor M/WBE utilization annually. The full disparity study is available at www.in.gov/igc.

2020 Expenditures

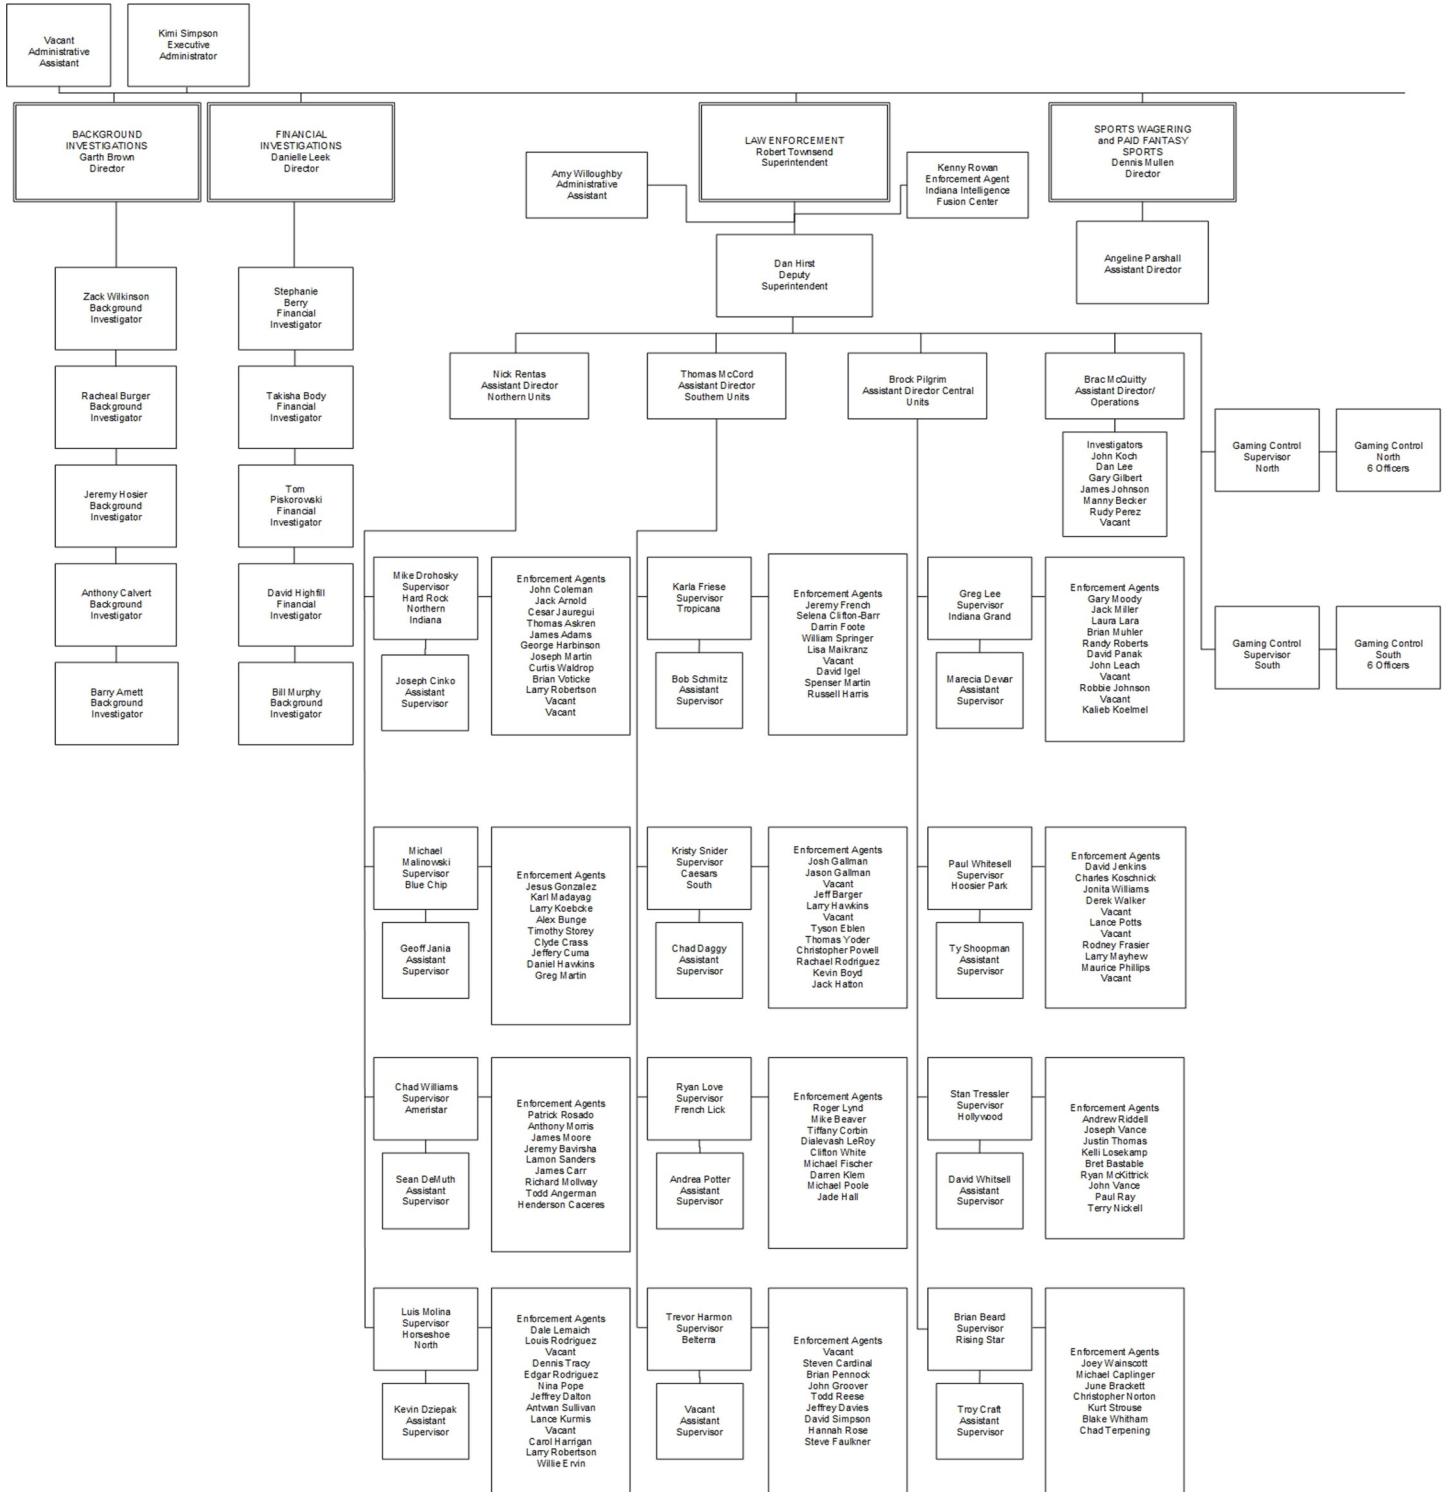

The table below indicates spending in each category in CY 2020. Not reflected in the chart, but of importance to note, is that casinos spent \$108.2 million with Indiana firms, including non-M/WBE, during this period.

<u>Purchase Type</u>	<u>Amount</u>	<u>MBE Spend</u>	<u>WBE Spend</u>
Construction	\$123,510,338	20.51%	8.97%
