Rule 2. Requirements for Prequalification of Contractors

105 IAC 11-2-1 General requirements

Authority: IC 8-23-2-6
Affected: IC 8-23-10

PREQUALIFICATION OF CONTRACTORS AND BIDDING

Sec. 1. (a) A contractor desiring to offer bids for the performance of contracts for the construction or maintenance of highways and bridges and appurtenances thereto must first be prequalified by the department and shall file a verified statement of experience and financial condition using the forms furnished by the department. The statement must include a complete report of the financial ability, adequacy of plant and equipment, organization, and experience of the applicant. The submission of a statement by the applicant is deemed authorization by the applicant for the prequalification committee to obtain all information which is deemed pertinent with respect to the applicant's financial worth, assets and liabilities, organization, personnel, construction experience, prosecution of work on previous contracts, condition and adequacy of equipment, and its attitude toward department regulations and the general public. A new statement is required at least once each year unless specifically requested at more frequent intervals.

(b) The commissioner or prequalification engineer may, at any time during which a certificate of qualification is in effect, demand a new statement. If the contractor does not furnish a new statement within sixty (60) days of the date of the request, the certificate of qualification held by the contractor may be considered forfeited and the contractor may not be permitted to bid on contracts of the department until a new statement has been received and acted upon by the department.

(c) Complete answers to all interrogatories and the furnishing of all information as indicated by column headings, footnotes, or otherwise throughout the statement are an essential part of compliance with this article. Failure to provide complete and true information is grounds for rejection of the application for prequalification and provides grounds for immediate disqualification.

(d) The department will act on an application within thirty (30) days of its receipt. Statements will be considered in the order received as promptly as circumstances permit, except statements from new applicants who desire to bid on projects advertised must be received no later than twenty-one (21) calendar days prior to the bid opening date to receive consideration for that bid opening. A statement from a contractor for prequalification renewal must be received at least fifteen (15) calendar days prior to the bid opening date to receive consideration for that bid opening. A contractor who meets the time frames required by this subsection may submit bids contingent upon the results of its prequalification application.

(e) No bidder shall be given a certificate of qualification unless the review of its statement shows that it possesses net current assets sufficient in the judgment of the commissioner to render it probable that it can satisfactorily execute its contracts and meet its obligations.

(f) An applicant must possess the qualifications prescribed and be determined to be a competent and responsible bidder as verified by the inquiries and investigations of the department to qualify for a certificate of qualification. The areas considered for qualification of the contractor include, but are not limited to, the following:

- (1) Organization.
- (2) Personnel.
- (3) Construction experience.
- (4) Prosecution of work on previous contracts.
- (5) Condition and adequacy of equipment.
- (6) Financial condition and quality of financial information.
- (7) The contractor's attitude toward department rules and the general public.

An applicant will not be considered as competent and responsible if found to be of a character that would otherwise subject it to suspension, revocation, or disqualification.

(g) The prequalification committee shall make a recommendation to the commissioner regarding what action shall be taken. The commissioner may, in the exercise of the commissioner's sole discretion, accept or reject the recommendation of the prequalification committee. The commissioner shall promptly send the contractor written notice of the decision. The certificate of qualification becomes effective after all avenues of appeal under section 9 of this rule are exhausted. Should such decision involve the addition of a classification or the increase of a rating to a certificate of qualification, the certificate of qualification shall become effective on the date the commissioner signs it and shall be in effect during administrative appeal under section 9 of this rule.

(h) For the purpose of determining competency and responsibility, the prequalification committee or the prequalification engineer may send evaluation forms either to those with whom the contractor has had present or previous business relationships or persons and entities who have utilized the past or present services of the contractor's employees. The responses received as a result of such inquiries are to be considered confidential for all purposes including, but not limited to, libel and slander. The responses received shall not be available under any circumstances to the contractor.

(i) No certificate of qualification will be valid for more than twelve (12) months, nor will its expiration date under any circumstance be subsequent to sixteen (16) months after the date of the statement upon which it is based. The certificate period will not be extended. The applicant will be notified if no certificate of qualification is issued.

(j) If, at any time during the valid period of a certificate of qualification, the latest statement on record with the department ceases to fairly and substantially represent the financial position or the construction equipment of the contractor to whom the certificate was issued, it shall be the responsibility of that contractor to so notify the prequalification engineer and to refrain from further bidding on contracts of the department until its qualification has been confirmed or revised. Failure to give such notice will constitute a violation of this article.

(k) A contractor shall not employ any scheme or device to evade this article or the effect of actions taken by the prequalification committee. Action taken by the prequalification committee for an entity controlled by certain owners or officers may be extended to other entities controlled by those same owners or officers, if the prequalification committee determines the extension is necessary to prevent a circumvention of this article.

(l) The department reserves the right to require a personal interview with any contractor when considering qualifications as a part of its investigation procedure. (*Indiana Department of Transportation; 105 IAC 11-2-1; filed Jul 25, 1991, 3:30 p.m.: 14 IR 2185; filed Jun 14, 1993, 5:30 p.m.: 16 IR 2538; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; readopted filed Jun 14, 2007, 2:45 p.m.: 20070627-IR-105070237RFA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA*)

105 IAC 11-2-2 Preparation and filing

Authority: IC 8-23-2-6

Affected: IC 8-23-10-2; IC 8-23-10-3

Sec. 2. (a) The contractor must submit the original statement for prequalification to the prequalification engineer. This statement must be complete, clearly legible, and in ink or typed.

(b) If the date of the statement is more than six (6) months old when submitted, the prequalification engineer may request a new statement.

(c) An unaudited statement more than six (6) months old will not be considered for qualification.

(d) The financial statement furnished by an applicant for qualification of more than one million dollars (\$1,000,000) must be prepared and attested as audited by an independent:

(1) certified public accountant registered and in good standing in any state; or

(2) public accountant registered and in good standing in Indiana.

(e) The financial statement furnished by an applicant for qualification of more than two hundred thousand dollars (\$200,000) but not more than one million dollars (\$1,000,000) must be prepared and attested as reviewed by an independent:

(1) certified public accountant registered and in good standing in any state; or

(2) public accountant registered and in good standing in Indiana.

(f) A qualification of two hundred thousand dollars (\$200,000) or less may be granted if the statement furnished by the applicant is certified as correct by an officer of the company.

(g) The accountant shall make an independent verification of assets and liabilities in accordance with generally accepted auditing standards. The accountant's execution of the certificate of audit will constitute certification that an audit in accordance with such standards has actually been performed and reported.

(h) In the event of physical dispersal of construction equipment or of subsequent use or sale of construction materials, the accountant may accept a signed statement of the contractor as evidence of possession of equipment or of materials inventory as of the date of the statement, but this shall not relieve the accountant of the usual responsibilities as to the following:

(1) Title.

(2) Proper and consistent depreciation.

(3) Liens or encumbrances.

(4) Reasonable pricing.

(i) Full and complete information, especially:

(1) the age, date of purchase, and cost when purchased; and

(2) the date if rebuilt;

must be provided for all major items of equipment. The nomenclature used must describe kind, manufacturer, type, capacity, etc., with additional details if necessary. All major items of useful equipment should be listed even though fully depreciated, but no obsolete or useless equipment is to be included.

PREQUALIFICATION OF CONTRACTORS AND BIDDING

(j) Contractors controlled by the same owners or officers desiring prequalification must use statements of a common date.

(k) The assets of a contractor shall be identified to support only one (1) prequalification at any time. If contractors controlled by the same owners or officers submit unaudited statements for prequalification, only one (1) of the entities may be prequalified unless the department is able to verify that assets and experience were not duplicated as a mechanism to artificially increase prequalification ratings.

(l) The statement of a corporation must be accompanied by a certified copy of the minutes covering the election of current officers and the current authorization of individuals designated to execute contracts binding the corporation. The current list of individuals authorized to execute contracts binding the corporation may be either a portion of the original articles of incorporation or some subsequent official action of the stockholders or the board of directors. If officers or authorization of individuals designated to execute contracts binding the corporation are changed in any manner, the contractor shall immediately notify and furnish the prequalification engineer with certified copies of appropriate documents.

(m) The initial statement of a foreign corporation must be accompanied either by valid evidence that it is registered and in good standing with the Indiana secretary of state or by a letter stating that, should it become the successful bidder on a department contract, authorization will be secured within fifteen (15) days after the bid opening. 105 IAC 11-2-3 Classification and capacity rating

Authority: IC 8-23-2-6

Affected: IC 8-23-10-2; IC 8-23-10-4

Sec. 3. (a) A contractor may be classified for one (1) or more types of work and will be rated in accordance with its financial ability, adequacy of plant and equipment, organization, prior experience, record of construction, and other pertinent and material facts which may affect its classification. The contractor will be assigned a classification which will limit the type and quantity of uncompleted work it has under contract at any one (1) time as principal or subcontractor regardless of the location of the work or with whom it is contracted.

(b) A contractor will be assigned an aggregate amount that is to be considered the largest dollar amount of uncompleted work it shall have under contract at any one (1) time, either as principal or subcontractor, or both, regardless of its location and with whom it is contracted, with the following exception: If the aggregate amount is less than three hundred thousand dollars (\$300,000), the aggregate amount is to be considered the largest dollar amount of uncompleted work a contractor shall have under contract at any one (1) time as a principal, regardless of its location and with whom it is contracted. The largest dollar amount of uncompleted work the contractor shall have under contract at any one (1) time, as principal and subcontractor, regardless of its location and with whom it is contracted, shall not exceed three hundred thousand dollars (\$300,000).

(c) The contractor's maximum aggregate rating as determined from the statement will be the sum of the following rating components:

(1) Net current assets multiplied by ten (10).

(2) Construction equipment assets (net book value) multiplied by eight (8), but not to exceed one and one-half (1 1/2) times subdivision (1).

(3) Net fixed and other assets multiplied by two (2), but not to exceed twenty-five percent (25%) of subdivision (1) plus subdivision (2).

(d) Accepted net current assets will be determined from the statement submitted and will be construed as to include only those net current assets which are readily convertible into working capital. Receivables from nongovernmental agencies over one (1) year old will be deducted for prequalification purposes.

(e) Notes due within one (1) year from the financial statement date will be considered a current liability. Notes due after twelve (12) months and within twenty-four (24) months will be considered a fixed liability and deducted from net fixed assets, and the excess, if any, will be deducted from the book value of the equipment. If this is insufficient, the excess will be deducted from the net current assets. Notes due after twenty-four (24) months will not be deducted for prequalification purposes.

(f) If the applicant has guaranteed loans of any person or any entity, or has used assets as security for these loans, or has made other guarantees or commitments of activities of any person or any entity, the department may reduce or adjust the applicant's net

PREQUALIFICATION OF CONTRACTORS AND BIDDING

current assets if in the judgment of the department the guaranteed loans, other guarantees, or commitments are significant when considered with the applicant's statement.

(g) Notes and accounts receivable from affiliated business firms will not be allowed as assets unless there is attached an audited financial statement showing the debtor has sufficient liquidity to discharge the debt, except an unaudited statement, certified as correct by the debtor, will be accepted if an unaudited statement is submitted for qualification. Notes and accounts receivable from partners of a partnership, or officers and stockholders of a corporation, may not be allowed as assets unless there is attached an audited financial statement.

(h) The book value and the market value for stocks and bonds are to be listed. Stocks and bonds will not be considered as working capital unless market value, determined or verified by the accountant, is given. Allowance for stocks and bonds is made for whichever is the lesser of the book or market value except that for stocks or bonds listed on the New York Stock Exchange, American Stock Exchange, or over-the-counter on the National Association of Securities Dealers Automated Quotations (NASDAQ) list, the market value will be used. Stocks of affiliates or subsidiaries which are qualified with the department will not be considered as assets.

(i) The value of useful construction equipment may be the book value listed or may be determined by the application of uniform depreciation schedules. No rating credit will be given for equipment which cannot be satisfactorily identified as to kind, type, and capacity or for which the essential information as to cost and age is not supplied.

(j) "Fixed and other assets" means those assets which have a collateral value but are not readily or normally converted into cash or not directly pertinent to the operation or financing of construction contracts. Construction equipment value in excess of the rating limitation of subsection (c)(2) will be considered as part of fixed assets.

(k) A contractor will first be given a tentative factor of one hundred percent (100%) in its aggregate and respective classified ratings. Each of these tentative factors may be reduced wholly or in part for the contractor's deficiencies in the following areas as determined from a summary of reports from field engineers, other investigations or an interview with the contractor, or both. The areas considered for qualification of the contractor include the following:

- (1) Organization.
- (2) Personnel.
- (3) Construction experience.
- (4) Prosecution of work on previous contracts.
- (5) Quality of workmanship on contracts.
- (6) Condition and adequacy of equipment.
- (7) The contractor's attitude toward department rules, the general public, and equal employment opportunity requirements.

(l) An "unlimited" qualification may be granted if a contractor's maximum aggregate rating exceeds one hundred million dollars (\$100,000,000).

(m) A contractor which has not performed work of any character under the firm name in its application and does not have, among its active staff, personnel of approved experience is not entitled to be rated for any work in excess of two hundred thousand dollars (\$200,000). An experience and performance factor reduction of not less than thirty percent (30%) will be made in the case of any organization which has not had previous experience on comparable work. Affected: IC 8-23-10

Sec. 4. (a) If the bidder's aggregate amount of work is greater than three hundred thousand dollars (\$300,000), then the bidder's bidding capacity with the department on any given date will be determined by deducting the value of all unearned work as of that date on contracts and subcontracts for work of any owner, contractor, or other party from the aggregate rating and from the appropriate classified ratings that are stated on its certificate of qualification. If the bidder's aggregate amount is equal to or less than three hundred thousand dollars (\$300,000), the bidder's bidding capacity with the department on any given date will be determined as the lesser of the value of all unearned work as of that date on:

- (1) contracts for work of any owner or other party deducted from the aggregate rating and from the appropriate classified ratings that are stated on the bidder's certificate of qualification; or
- (2) contracts and subcontracts for work of any owner, contractor, or other party deducted from three hundred thousand dollars (\$300,000).

PREQUALIFICATION OF CONTRACTORS AND BIDDING

(c) It shall be the responsibility of each qualified bidder to ensure that a bid submitted for a single contract does not exceed its bidding capacity on the date bids are opened. If the bidder does not limit the sum of its regular bids to the volume of work permitted by its bidding capacity, the department may selectively award low bids up to, but not exceeding, the bidder's bidding capacity.

(d) The bidder must show, on the form provided in each proposal bid, the total and type of all unearned work:

(1) under contract with any owner, contractor, or other party either as principal or subcontractor, based on the latest engineer's or owner's estimate, with proper allowance for work subsequently performed; and

(2) under the department's approved subcontracts sublet to an approved subcontractor.

(e) The commitment of personnel and equipment on a payroll or rental basis for the performance of definite and specific work must be reported as unearned work even though no formal contract may exist. The contractors in the joint venture may combine their individual bidding capacities in order to meet the requirements of section 3 of this rule. A contractor in a joint venture shall have bidding capacity for the work the contractor is to perform. The bid items or the percentage of the bid item to be performed by a contractor in the joint venture must be shown in the proposal bid. The value thereof will be charged to the individual contractor's aggregate and classified bidding capacity.

(d) A request for a joint venture is subject to department approval and must be executed on the form prescribed by the department. The form must be:

Authority: IC 8-23-2-6

Affected: IC 8-23-10

Sec. 6. (a) The bidder shall make a reasonable visual examination of the site of the proposed work and the contract documents before submitting a proposal bid. The submission of a proposal bid will be considered conclusive evidence that the bidder has made

a reasonable visual examination of the project site and contract documents.

(b) When an item listed as a pay item is:

(1) shown on the plans and not in the schedule of pay items; and

(2) not specifically excluded from payment in the specifications or in the contract documents;

The department also may determine that payment for the item will be made in accordance with the department's Standard Specifications when the work has been authorized by the department and performed by the contractor.

(c) Information pertaining to exploration, borings, test pits, and other preliminary investigations may appear on the plans. Soils investigation reports, when available, will be made available for inspection upon request. There is no expressed or implied guarantee that conditions so indicated in the soil investigation reports are entirely representative of those actually existing, or that unanticipated conditions may not exist. These investigations will have been made only for the information of the engineer and to assist in the preparation of the design. The state of Indiana assumes no responsibility for the completeness of the information nor for the actual subsoil or other conditions that may be found to exist during the progress of construction unless otherwise provided in the contract. The bidder shall:

(1) put its own interpretation on results of the investigations; and

(2) satisfy itself as to materials to be excavated and soil through which piles may be driven.

(d) If a bidder contemplating the submission of a proposal bid for a contract is in doubt as to the true meaning of any part of the plans, specifications, or other contract documents, the bidder may submit to the department a request for an interpretation thereof as specified in the proposal form. The request must be delivered to the department not later than ten (10) days before the advertised date for the opening of bids. The interpretation will be:

(1) made by an authorized representative of the department; and

(2) posted as designated on the proposal page.

The department will not be responsible for other interpretations of the contract documents.

(e) With respect to utilities and railroads, the bidder shall conduct a reasonable visual review of the project site and contract documents. If there are problems that the bidder knows of or should know of with respect to utilities or railroads, the bidder shall make a reasonable inquiry of the utility or railroad before submitting its proposal bid. 105 IAC 11-3-7 Preparation of proposal bid

Authority: IC 8-23-2-6

Affected: IC 8-23-9-21; IC 8-23-10

Sec. 7. (a) No part of the proposal form or proposal bid shall be deleted, detached, or altered.

(b) The quantities appearing in the schedule of pay items are approximate and are prepared for the comparison of bids. Payment to the contractor will be made only for:

(1) the actual quantities of work performed and accepted; or

(2) materials furnished in accordance with the contract.

The scheduled quantities of work to be done and materials to be furnished may be increased, decreased, or omitted.

(c) The bidder must submit its bid in the format specified by the proposal form. All required items in the proposal form must be complete when submitted.

(d) If the proposal form allows a paper bid to be submitted, the bidder may submit a schedule of pay items that has been produced by computer using the electronic schedule of pay items provided on the department's Web site.

(e) If a bidder states an incorrect item description, quantity, price, or unit, then the item description, quantity, price, or unit shown on the department's schedule of pay items, will control. The department will:

(1) correct an incorrect item number if the bidder's intent is clear; and

(2) compute the bid based on the:

(A) item numbers shown on the bidder's computerized schedule of pay items and any corresponding item numbers the department corrects;

PREQUALIFICATION OF CONTRACTORS AND BIDDING

- (B) quantity and units for each item shown on the department's schedule of pay items; and
- (C) bidder's unit price or lump sum price for each item, regardless of the item description, quantity, or unit shown on the computerized schedule of pay items.

If the bidder bids on item numbers deleted or not included in the department's schedule of pay items the department will disregard the items and adjust the total bid accordingly. In the event the bidder bids on both its computerized schedule of pay items and the department's schedule of pay items, the department's schedule of pay items shall govern. The bidder is responsible for all errors.

(f) A bidder must file a sworn statement executed by or on behalf of the person, firm, association, or corporation submitting the bid, certifying that the person, firm, association, or corporation has not, either directly or indirectly:

- (1) entered into any agreement;
- (2) participated in any collusion; or
- (3) otherwise taken any action;

in restraint of free competitive bidding in connection with the submitted bid. The required form for the statement will be incorporated into the format specified by the proposal form and as applicable to each prospective bidder.

(g) When an:

- (1) alternate bid is requested; or
- (2) item in the proposal form contains a choice to be made by the bidder;

the bidder must indicate its choice in accordance with the special provisions or specifications for that particular item, and thereafter no further choice will be permitted.

(h) A paper proposal bid must show the firm name or names and be signed in ink by:

- (1) the individual;
- (2) one (1) or more members of the partnership;
- (3) one (1) or more members or officers of:
 - (A) each company representing a joint venture; or
 - (B) a corporation duly authorized to sign contracts; or
- (4) an agent of the bidder legally qualified and acceptable to the department.

(i) An electronic proposal bid must be submitted through and authenticated by a designated electronic medium.

(j) To submit an electronic proposal bid, a bidder shall pay the fees required by the designated electronic medium to participate in the electronic bidding system.

(k) The bidder must properly execute the following in a format specified by the department:

- (1) The bid bond.
- (2) The performance bond.
- (3) The highway contract form.
- (4) The noncollusion affidavit.
- (5) The current contractual obligations.
- (6) Any other information or assurances specified in the notice to contractors.
- (7) Any forms included in the proposal form before submitting same.

105 IAC 11-3-8 Bid and performance bonds

Authority: IC 8-23-2-6
Affected: IC 8-23-9

Sec. 8. (a) A bidder must submit a bid bond and a performance bond as designated on the proposal page, except as provided in subsection (c). The bonds must be:

- (1) properly executed by a surety company satisfactory to the department; and
 - (2) payable to the state of Indiana.
- (b) An Indiana resident agent or a nonresident agent, licensed in Indiana, or an employee of the surety company must execute

the bonds. All paper executed bid and performance bonds must be:

- (1) accompanied by a valid power of attorney letter; and
- (2) submitted as designated on the proposal page.

An electronic bid bond must be authenticated by a designated electronic medium.

- (c) For contracts of one hundred thousand dollars (\$100,000) or less for:
 - (1) roadside mowing;
 - (2) vegetation control;
 - (3) demolition;
 - (4) landscaping;
 - (5) fencing;
 - (6) seeding and sodding;
 - (7) bridge painting; and
 - (8) guardrail installations;

a performance bond is not required. If the bidder elects not to furnish the performance bond, an amount equivalent to ten percent (10%) of the amounts payable will be deducted and retained by the department until final payment is made.

(d) The bid bond must be in the penal sum of an amount equal to five percent (5%) of the amount bid. The performance bond must be in the penal sum of an amount not less than one hundred percent (100%) of the amount bid.

(e) When the surety company furnishes a bond to a bidder in an amount exceeding its underwriting limitations, as shown by the latest U.S. Department of the Treasury's register, the surety company shall file the necessary reinsurance agreements with the department, on forms provided by the department, within fifteen (15) days from the date of notification to the contractor of an insufficient bond. The reinsurance agreements must be furnished by a surety company acceptable to the department.

(f) Failure to furnish required documentation or assurances such that the department cannot execute the contract with the bidder will be cause for forfeiture of the bid bond and reduction in the bidder's prequalification. At the discretion of the commissioner:

- (1) the award of the contract may be made to the next eligible bidder;
- (2) the work may be readvertised; or
- (3) all bids may be rejected and the work not readvertised.

105 IAC 11-3-9 Combination proposal bids

Authority: IC 8-23-2-6
Affected: IC 8-23-10

Sec. 9. If the department elects, proposal forms may be issued for projects in combination or separately, so that bids may be submitted either on the combination or on separate units of the combination. The commissioner may make awards on combination bids or separate bids to the best advantage of the state. No combination bids, other than those specifically set up in the proposal forms by the department, will be considered. *(Indiana Department of Transportation; 105 IAC 11-3-9; filed Jul 25, 1991, 3:30 p.m.: 14 IR 2196; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; filed May 23, 2007, 2:58 p.m.: 20070620-IR-105070036FRA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA)*

105 IAC 11-3-10 Conditional proposal bids

Authority: IC 8-23-2-6
Affected: IC 8-23-10

Sec. 10. (a) Contracts on which bids are requested will be advertised as:

- (1) "Roadway Construction Contracts Group (R, IR, RS)";
- (2) "Bridge Construction Contracts Group (B, IB)";

- (3) "Traffic Contracts Group (T, TM)"; or
- (4) "Maintenance Contracts Group M".

Proposal bids will be marked "regular" or "conditional", and the bidder shall select the word that applies; otherwise, the proposal bids will be considered regular. A bidder may submit either a regular or a conditional proposal bid on a contract unless otherwise stated in the notice to contractors or the special provisions, provided, the bidder submits at least one (1) regular proposal bid in the same group. The sum of a bidder's regular proposal bids in all groups and the bidder's uncompleted work on hand must not exceed the bidder's qualification limits.

(b) The bidder may submit a maximum of three (3) conditional proposal bids in a group, conditioned on the bidder's failure to be the lowest bidder on its regular proposal bids in that group. If the bidder submits more than three (3) conditional proposal bids in a group, the commissioner will reject all conditional proposal bids of that bidder that apply to that particular group. If all of the bidder's regular proposal bids in a group are the lowest acceptable bids, then all of its conditional proposal bids in that group will be null and void.

(c) For each of the regular proposal bids in a group that is not the lowest acceptable bid, the commissioner may select one (1) of the bidder's conditional proposal bids in that group, and it will then become regular. The commissioner will select conditional proposal bids to the best advantage of the state. No bidder will be awarded contracts in a group exceeding the number of its regular proposal bids submitted in that group. 105 IAC 11-3-11 Delivery of proposal bids

Authority: IC 8-23-2-6
Affected: IC 8-23-10

Sec. 11. A bidder must submit each proposal bid by the medium designated in the proposal form before the time specified in the notice to contractors in order to be considered. When the proposal form allows a paper proposal bid to be submitted, the bid shall be submitted in a sealed envelope, and the blank spaces on the envelope furnished must be filled in correctly to clearly indicate its content. When an envelope other than the one furnished by the department is used, it must be:

- (1) of the same general size and shape; and
- (2) similarly marked to clearly indicate its contents.

Paper proposals bids received after the time advertised for opening of bids will be returned to the bidder unopened. (*Indiana Department of Transportation; 105 IAC 11-3-11; filed Jul 25, 1991, 3:30 p.m.: 14 IR 2196; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; filed May 23, 2007, 2:58 p.m.: 20070620-IR-105070036FRA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA*)

105 IAC 11-3-12 Withdrawal or revision of proposal bids

Authority: IC 8-23-2-6
Affected: IC 8-23-10

Sec. 12. A bidder may withdraw or revise a proposal bid through a medium designated in the proposal form before the time set for receipt of bids. When a paper bid is submitted, a bidder may withdraw or revise a proposal bid after it has been deposited with the department if the request for withdrawal or revision is received by the department in writing before the time set for receipt of bids. (*Indiana Department of Transportation; 105 IAC 11-3-12; filed Jul 25, 1991, 3:30 p.m.: 14 IR 2196; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; filed May 23, 2007, 2:58 p.m.: 20070620-IR-105070036FRA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA*)

105 IAC 11-3-13 Public opening of proposal bids

Authority: IC 8-23-2-6
Affected: IC 8-23-9-1; IC 8-23-10

Sec. 13. Proposal bids will be downloaded from the electronic medium or opened and read publicly on the date and at the time and place advertised or at another public place that the commissioner may designate on the day the proposal bids are to be read publicly. Bidders, their authorized agents, and other interested parties may be present. The department shall not release the individual estimated items that were summarized in the engineer's total cost estimate. (*Indiana Department of Transportation; 105 IAC 11-3-13; filed Jul 25, 1991, 3:30 p.m.: 14 IR 2196; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; filed May 23, 2007, 2:58 p.m.: 20070620-IR-105070036FRA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA*)

105 IAC 11-3-14 Consideration of proposal bids

Authority: IC 8-23-2-6

Affected: IC 8-23-9; IC 8-23-10

Sec. 14. (a) When the proposal form allows paper proposal bids to be accepted and after the proposal bids are opened and read, the proposal bids will be compared on the basis of the summation of the products of the quantities shown in the department's schedule of pay items by the unit prices bid. If no unit price is shown for a pay item, the unit price will be determined by dividing the extension by the quantity shown in the department's scheduled pay items. If no extension or unit price is shown for one (1) pay item, the extension will be determined by subtracting the extensions from the contractor's total bid amount, provided that there are no errors in the contractor's extensions. The results of such comparisons will be available to the public. In the event of a discrepancy between unit prices bid and extensions, the unit prices bid will govern.

(b) The award of a contract, if it will be awarded, will be made after the opening of proposal bids to the lowest and best responsible and qualified bidder whose proposal bid complies with all the requirements prescribed in the proposal form and this article, provided the sum is not greater than the engineer's estimate. However, the commissioner may award a contract if the proposal bid is not more than five percent (5%) above the engineer's estimate and the commissioner believes that awarding a contract is in the best interests of the state. If the notice to proceed is not dated within sixty (60) days of the opening of bids, the proposal bid may be withdrawn by the contractor or the award rescinded by the commissioner. Acceptance of the contract by the contractor is deemed a reaffirmation of all items and prices in the original proposal bid. However, the proposal bid may not be withdrawn by the contractor if the notice to proceed is not dated within sixty (60) days of the opening of bids due to any of the following reasons:

- (1) The contractor fails to furnish requested forms or information.
- (2) The contractor has agreed to a delay.
- (3) The department is involved in any judicial or administrative action or appeal relating to:
 - (A) a minority business enterprise;
 - (B) a disadvantaged business enterprise;
 - (C) a women's business enterprise goal or program; or
 - (D) any other judicial or administrative action arising out of the proposal bid.
- (4) The contractor, either directly or indirectly, causes a delay through its commission or omission.
- (5) The proposal bid states otherwise.

(c) No proposal bid will be binding on the department until the contract form has been properly executed by the commissioner and approved by the attorney general. In no event shall the contractor be compensated for any costs incurred before the notice to proceed. (*Indiana Department of Transportation; 105 IAC 11-3-14; filed Jul 25, 1991, 3:30 p.m.: 14 IR 2196; filed Jun 14, 1993, 5:30 p.m.: 16 IR 2541; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; filed May 23, 2007, 2:58 p.m.: 20070620-IR-105070036FRA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA*)

105 IAC 11-3-14.5 Tax liability

Authority: IC 8-23-2-6

Affected: IC 6-8.1-8-2; IC 8-23-10-7

Sec. 14.5. (a) Under IC 8-23-10-7, if the department is notified by the department of state revenue that a bidder is on the most recent tax warrant list, the department may not enter into a contract with that bidder until:

- (1) the bidder provides to the department a statement from the department of state revenue that the bidder's delinquent tax

liability has been satisfied; or

(2) the department receives a notice from the commissioner of the department of state revenue under IC 6-8.1-8-2(k).

(b) Failure of a bidder to meet the requirements of subsection (a) within fifteen (15) days after the opening of bids will be considered cause for:

(1) cancellation of the award;

(2) forfeiture of the bid bond; and

(3) reduction in the bidder's qualification.

(Indiana Department of Transportation; 105 IAC 11-3-14.5; filed Jun 14, 1993, 5:30 p.m.: 16 IR 2542; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; filed May 23, 2007, 2:58 p.m.: 20070620-IR-105070036FRA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA)

105 IAC 11-3-15 Corporations

Authority: IC 8-23-2-6

Affected: IC 8-23-10

Sec. 15. (a) The department will not enter into a contract or approve a subcontract with any corporation unless the corporation is registered and in good standing to do business in Indiana by the Indiana secretary of state. If:

(1) the corporation does not have authorization to do business in Indiana at the time its bid is submitted; and

(2) its bid is low and accepted;

valid evidence must be furnished within fifteen (15) days after the opening of bids showing that the authorization has been acquired.

(b) Failure to become authorized to do business in Indiana and to submit valid evidence within the stated time will be considered cause for:

(1) cancellation of the award;

(2) forfeiture of the bid bond; and

(3) a reduction in the bidder's qualification.

(Indiana Department of Transportation; 105 IAC 11-3-15; filed Jul 25, 1991, 3:30 p.m.: 14 IR 2197; readopted filed Nov 7, 2001, 3:20 p.m.: 25 IR 899; filed May 23, 2007, 2:58 p.m.: 20070620-IR-105070036FRA; readopted filed Oct 2, 2013, 11:39 a.m.: 20131030-IR-105130295RFA; readopted filed Oct 4, 2019, 9:49 a.m.: 20191030-IR-105190422RFA)

105 IAC 11-3-16 Rejection of proposal bid after opening

Authority: IC 8-23-2-6

Affected: IC 8-23-9-2; IC 8-23-9-13; IC 8-23-10-1; IC 8-23-10-6

Sec. 16. (a) A proposal bid opened and read will be subsequently rejected under the following conditions:

(1) When the bidder fails to submit with the bid a:

(A) properly executed:

(i) bid bond;

(ii) performance bond; or

(iii) noncollusion affidavit; or

(B) valid power of attorney letter which authorizes the person to bind the surety to the bid bond and the performance bond.

(2) When the bidder:

(A) does not hold a valid certificate of qualification; or

(B) exceeds its bidding capacity.

(3) When the bidder submits a paper proposal bid and:

(A) the department cannot mathematically determine a bidder's unit price or lump sum price for each pay item in the proposal bid; or

(B) the department's calculation of the bidder's unit price or lump sum price is zero (0) or a negative amount.

(4) When no bids received on a contract are less than or equal to five percent (5%) above the engineer's estimate.

(5) When the bidder adds a provision reserving the right to accept or reject the award.

PREQUALIFICATION OF CONTRACTORS AND BIDDING

- (6) If the bidder modifies or alters a provision in the contract documents.
- (7) If the bidder is a trust and fails to disclose the identity of each of the following:
 - (A) Beneficiary of the trust.
 - (B) Settlor empowered to revoke or modify the trust.
- (8) When the bidder fails to submit documents required by the proposal page at the time it submits a proposal bid.
- (b) The commissioner in the commissioner's sole personal judgment and discretion may reject any and all proposal bids for cause.
 - (c) The commissioner may reject any and all proposal bids for any reason, including, but not limited to, any of the following situations, if, in the sole personal judgment and discretion of the commissioner, the rejection is in the best interest of the state:
 - (1) When the bidder fails to comply with this article.
 - (2) When there exists evidence of collusion among bidders.
 - (3) When the bidder has had involvement, in any way, in the design of the project or preparation of the plans or special provisions, unless a general announcement specifically allows for such involvement.
 - (4) When it is either impossible or not practical to proceed with the proposed work.
 - (5) When the bids are above but within five percent (5%) of the engineer's estimate.
 - (6) When:
 - (A) a paper proposal bid is on a form other than the one furnished or authorized by the department for that bidding; or
 - (B) an electronic proposal bid is submitted through an entity other than a designated electronic medium.
 - (7) If the proposal bid contains obviously unbalanced prices.
 - (8) If a paper proposal bid is not completed either in ink or in type.
 - (9) When the written documents required in section 7 of this rule are not properly executed, signed, and notarized subject to subsection (d).
 - (10) When the commissioner, in the exercise of the commissioner's sole personal judgment and discretion, determines, subsequent to the opening of bids, facts exist that would disqualify the low bidder or that such low bidder is not competent, responsible, or of a character satisfactory to perform work for the state of Indiana.
 - (11) When the bidder fails to meet the requirements of the disadvantaged business enterprise or women or minority business enterprise programs, where applicable.
 - (d) When documents are omitted or improperly executed or signed, the department may allow the bidder to make the necessary corrections subsequent to the opening. The corrections, if allowed, must be made within seven (7) calendar days after notification to the bidder of the irregularities. However, this provision does not apply to the conditions described in subsection (a).
 - (e) Failure to execute the requested corrections within the seven (7) day period will be cause for the cancellation of the award, forfeiture of the bid bond, and a reduction in the bidder's qualification. In such event, the commissioner, in the exercise of the commissioner's sole personal judgment and discretion, may either:
 - (1) award the contract to the next eligible bidder;
 - (2) reject all bids and readvertise for new bids; or
 - (3) reject all bids and not readvertise for new bids.
 - (f) For proposal bids rejected under sections 14 through 15 of this rule and this section the department, at the discretion of the commissioner, may either:
 - (1) award the contract to the next eligible bidder;
 - (2) reject all bids and readvertise for new bids; or
 - (3) reject all bids and not readvertise for new bids.

All applications must be verified by the applicant.

(b) The department shall act within thirty (30) days upon an application for qualification. Upon the receipt of an application for qualification, the department shall examine and may investigate the application and shall determine whether the applicant is competent and responsible and possesses the financial resources that satisfy this chapter.

(c) If the applicant is found to possess the qualifications prescribed by this chapter and by the rules adopted by the department, the department shall issue a certificate of qualification, which shall be valid for the period of twenty-four (24) months, or a shorter period of time that the department prescribes, unless revoked by the department for cause. The certificate of qualification must contain a statement fixing the aggregate amount of uncompleted work that the applicant will be permitted to have at any time under a contract with the department and may also, in the discretion of the department, contain a statement limiting a bidder to the submission of bids upon a certain class or classes of work. All applications for qualification must expressly authorize the department to obtain all information considered pertinent with respect to the financial worth and assets and liabilities of the applicant from banks or other financial institutions, surety companies, dealers in material, equipment, or supplies, or other persons having business transactions with an applicant and must expressly authorize all financial institutions or other persons to furnish information requested by the department.

without being read. If the department finds subsequent to the opening of bids that facts exist that would disqualify the lowest bidder, or that the bidder is not competent and responsible, the department shall reject the bid despite the fact of prior qualification of the bidder. It is unlawful to award a contract to a bidder not qualified to bid at the time fixed for receiving bids.

As added by P.L.18-1990, SEC.219.
